

# Navigating the QCOR Heart Hub

Access Sessions OnDemand for 90 days after the event.  
(Registration required.)

If you did not attend the QCOR 2020 virtual event you can still register for Sessions OnDemand by clicking the OnDemand banner.

In case you missed it, watch video highlights and view recorded sessions from the QCOR 2020 virtual event.

Read Science News updates.

Read curated quality of care and outcomes content from AHA journals.

View specialty coverage from journals.

Find AHA membership information such as FAHA material, mentoring programs and councils.

Claim CME credit.

Access nearly 200 ePosters.

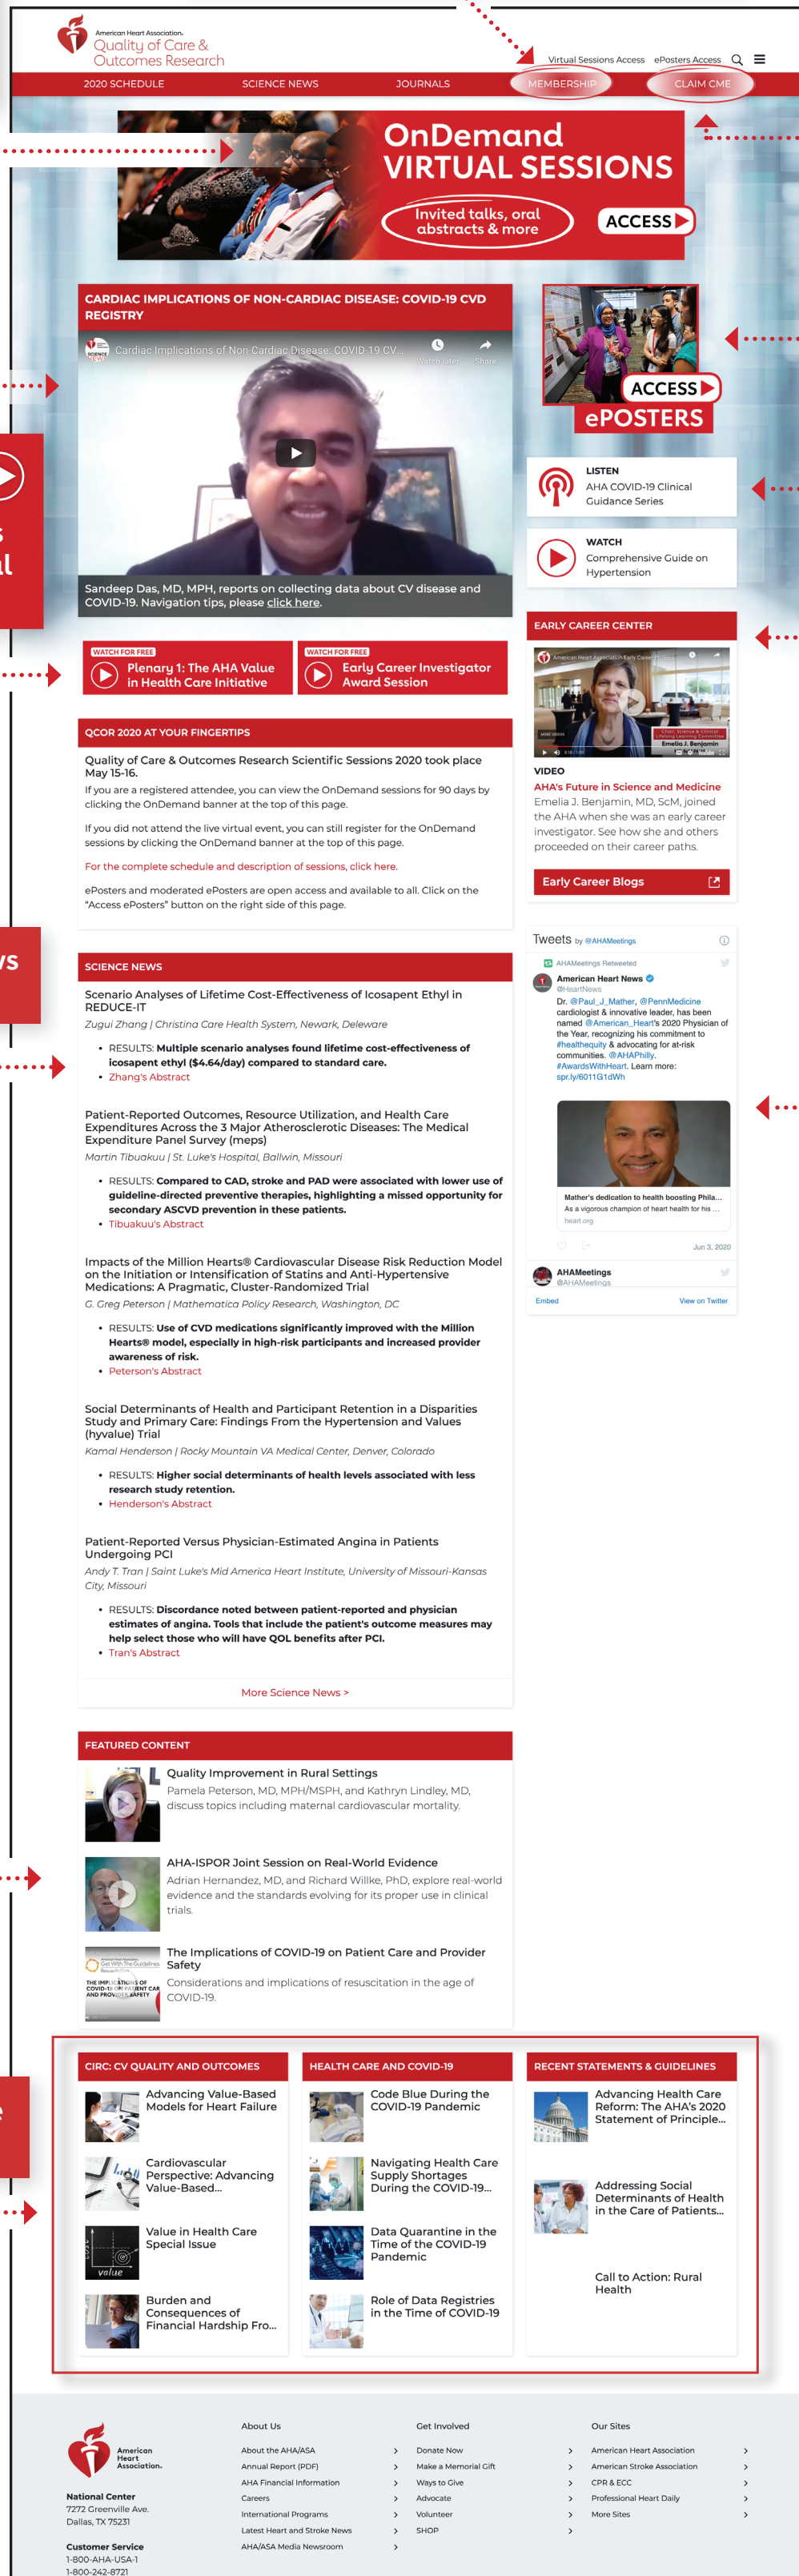

Listen to podcasts featuring the latest guidelines and research.

Access Early Career videos, blogs and Zoom Sessions.

Follow @AHAMeetings

STAY TUNED

The QCOR Heart Hub will be continually updated throughout the year.

The screenshot shows the QCOR Heart Hub website interface. At the top, there's a navigation bar with links for 2020 SCHEDULE, SCIENCE NEWS, JOURNALS, MEMBERSHIP, and CLAIM CME. Below this is a large banner for 'OnDemand VIRTUAL SESSIONS' with an 'ACCESS' button. To the right, there's a section for 'ePOSTERS' with an 'ACCESS' button. Below the ePosters section, there's a 'LISTEN' section for 'AHA COVID-19 Clinical Guidance Series' and a 'WATCH' section for 'Comprehensive Guide on Hypertension'. Further down, there's an 'EARLY CAREER CENTER' section with a video player and a 'VIDEO' section for 'AHA's Future in Science and Medicine'. Below the video section, there's a 'Tweets by @AHAMeetings' section. At the bottom, there's a 'SCIENCE NEWS' section with several articles, a 'FEATURED CONTENT' section with three featured items, and a 'RECENT STATEMENTS & GUIDELINES' section with three recent statements. The footer contains contact information for the National Center, Customer Service, and links to various resources.

**QCOR 2020 AT YOUR FINGERTIPS**  
Quality of Care & Outcomes Research Scientific Sessions 2020 took place May 15-16.  
If you are a registered attendee, you can view the OnDemand sessions for 90 days by clicking the OnDemand banner at the top of this page.  
If you did not attend the live virtual event, you can still register for the OnDemand sessions by clicking the OnDemand banner at the top of this page.  
For the complete schedule and description of sessions, click here.  
ePosters and moderated ePosters are open access and available to all. Click on the "Access ePosters" button on the right side of this page.

**SCIENCE NEWS**  
Scenario Analyses of Lifetime Cost-Effectiveness of Icosapent Ethyl in REDUCE-IT  
Zugui Zhang | Christina Care Health System, Newark, Delaware  
RESULTS: Multiple scenario analyses found lifetime cost-effectiveness of icosapent ethyl (\$4.64/day) compared to standard care.  
Zhang's Abstract  
Patient-Reported Outcomes, Resource Utilization, and Health Care Expenditures Across the 3 Major Atherosclerotic Diseases: The Medical Expenditure Panel Survey (meps)  
Martin Tibuakuu | St. Luke's Hospital, Ballwin, Missouri  
RESULTS: Compared to CAD, stroke and PAD were associated with lower use of guideline-directed preventive therapies, highlighting a missed opportunity for secondary ASCVD prevention in these patients.  
Tibuakuu's Abstract  
Impacts of the Million Hearts® Cardiovascular Disease Risk Reduction Model on the Initiation or Intensification of Statins and Anti-Hypertensive Medications: A Pragmatic, Cluster-Randomized Trial  
G. Greg Peterson | Mathematica Policy Research, Washington, DC  
RESULTS: Use of CVD medications significantly improved with the Million Hearts® model, especially in high-risk participants and increased provider awareness of risk.  
Peterson's Abstract  
Social Determinants of Health and Participant Retention in a Disparities Study and Primary Care: Findings From the Hypertension and Values (hyvalue) Trial  
Kamal Henderson | Rocky Mountain VA Medical Center, Denver, Colorado  
RESULTS: Higher social determinants of health levels associated with less research study retention.  
Henderson's Abstract  
Patient-Reported Versus Physician-Estimated Angina in Patients Undergoing PCI  
Andy T. Tran | Saint Luke's Mid America Heart Institute, University of Missouri-Kansas City, Missouri  
RESULTS: Discordance noted between patient-reported and physician estimates of angina. Tools that include the patient's outcome measures may help select those who will have QOL benefits after PCI.  
Tran's Abstract
