

What will you learn today?

NEJM
GROUP

KNOW

THE NEW ENGLAND JOURNAL OF MEDICINE

The *New England Journal of Medicine* (NEJM) is the most influential and trusted source for new medical knowledge and clinical best practice. Pioneering research articles, in-depth reviews, and concise research synopses cover many specialty areas. NEJM.org offers rich multimedia including clinical practice videos, interactive medical cases, and audio podcasts for on-the-go learning options on any device. NEJM informs medical understanding and practice worldwide while driving efforts to improve health care delivery and patient outcomes.

NEJM.ORG

NEJM EVIDENCE

NEJM Evidence, a monthly digital journal, gives you an insider's view on how clinical trials are designed, how evidence is generated, and the subsequent implications for diagnostic and treatment decisions. Led by former NEJM Editor-in-Chief Jeffrey M. Drazen, MD, *NEJM Evidence* adheres to rigorous standards of peer review and publication quality. Explore early-stage discoveries and confirmatory trials that shape medicine today and inform practice tomorrow.

EVIDENCE.NEJM.ORG

NEJM JOURNAL WATCH

The physician-editors of NEJM Journal Watch scan more than 150 medical journals across key specialties to provide the most critical and clinically relevant updates on the latest medical research. NEJM Journal Watch delivers timely information that physicians can trust, in a format that makes for an engaging, productive read. With succinct summaries and expert commentary, NEJM Journal Watch helps time-constrained clinicians expand their knowledge and provide better patient care.

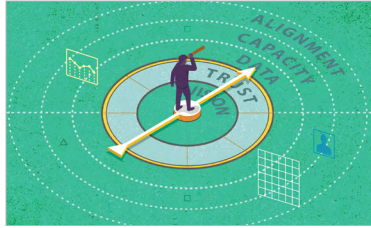

JWATCH.ORG

CME & MOC

NEJM Group offers a range of CME and MOC options. Authored by practicing clinicians, exams and questions cover a wide variety of medical topics and are available in print, online, and on mobile devices. Clinicians can assess their knowledge and address their learning gaps quickly and effectively.

LEAD

ADVANCE

NEJM 医学前沿

NEJM医学前沿, or NEJM Frontiers in Medicine, is the authorized digital platform offering translated full-text content for the Chinese medical community. Each week, an expert team of Chinese physician-editors translates select content from NEJM and NEJM Journal Watch of importance to Chinese health care professionals, applying rigorous standards to ensure accuracy and quality control. Accompanying many of these articles is local commentary with additional context and analysis from China-based physician experts.

NEJM CATALYST

NEJM Catalyst launched in 2015 as a platform for executives, clinical leaders, and clinicians to share innovative ideas and practical applications for enhancing the value of health care delivery. Together with a network of advisors and thought leaders we launched a subscription-based, peer-reviewed journal, *NEJM Catalyst Innovations in Care Delivery*, in December 2019, which along with our live-streamed events and qualified Insights Council provide real-life examples and actionable solutions to help organizations address the urgent challenges of health care.

NEJM CAREERCENTER

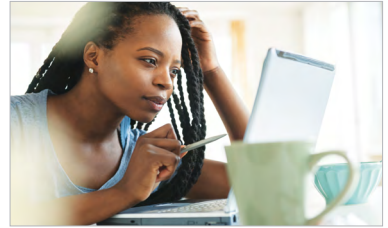

When physicians are exploring the next step in their career — or recruiters are looking for the best candidates — they count on NEJM CareerCenter. Opportunities are listed in the recruitment section of NEJM U.S. print issues and at NEJMCareerCenter.org, where visitors can search for jobs by specialty and geography, share and apply for jobs, submit or search personal profiles, and sign up for automated job alerts. And with the NEJM CareerCenter app, jobseekers can get job alert notifications, search and view the latest openings, and submit applications right from their mobile device.

NEJMCAREERCENTER.ORG

“Of the many journals that I subscribe to, NEJM Catalyst is the one I most look forward to receiving because it has such relevant and useful content.”

– Chief Healthcare Transformation Officer, United States

PREPARE

NEJM KNOWLEDGE+

NEJM Knowledge+ provides clinicians with an efficient and effective way to learn, improve their quality of practice, earn MOC and CME, and prepare for board exams. The adaptive algorithm continually adjusts to create a personal learning experience, and educators benefit from powerful assessment tools. NEJM Knowledge+ Pain Management and Opioids helps clinicians ensure they are up to date on current guidelines and clinical best practices while meeting their state's mandated CME requirements.

NEJM HEALER

NEJM Healer is an innovative new way for faculty to teach and assess clinical reasoning and for students to develop sound diagnostic skills. This online application combines the most current and reliable clinical information and emerging cognitive science in an expertly developed library of virtual patient encounters with advanced feedback and reporting. NEJM Healer demystifies the clinical reasoning process and engages students in deliberate practice that better prepares them for each new stage of their clinical training.

HEALER.NEJM.ORG

“The [NEJM Knowledge+] questions were very similar to the actual exam and the descriptions of the answers proved to be wonderful resources for high-yield learning.”

– Physician, United States

Our mission is to advance medical knowledge from research to practice to ensure professionals have the information they need to improve health care quality and patient outcomes.

“I think of it [NEJM] as a core resource for peer-reviewed, relevant, and timely updates in internal medicine — relevant for practice and for teaching purposes.”

– Physician, United States

NEJMGROUP.ORG

NEJM Group fosters global connections. Our authors and readers form a worldwide community of practitioners, researchers, educators, health care leaders, and medical professionals. Together, we engage in substantive discourse that drives health care decisions every day, everywhere.

We ensure medical professionals:

- Have the information they need to improve health care quality and patient outcomes
- Keep current with recent research discoveries and promising new therapies
- Develop skills and knowledge for today's dynamic health care environment
- Implement practical solutions for health care delivery transformation
- Bring about health care policies that adapt to new medical, social, and political realities
- Increase learning efficiency and reinforce knowledge retention
